

# Little Oneroa Beach Playground Shade

REF # 25998

## FEATURED PROJECT DETAILS

**Client:** Auckland Council

**Location:** Little Oneroa Beach, Waiheke Island

**Completion Date:** November 2010

**Area:** 190m<sup>2</sup>

**Use:** To provide shade over the playground equipment and surrounding area during the spring, summer and autumn.

**Structure Description:** 5x shaped and twisted Shade Sails that join and overlap each other.

## PROJECT DESIGN BRIEF

Working to the local council and community board's strict requirements resulted in a stunning configuration of overlapping, interconnected sails in imitation of the rugged natural location.

- natural building materials
- dark green colours
- removable sails
- sympathetic to surroundings

Shade Systems—Respecting the Environment

## MATERIALS

**Membrane/Fabric:** Monotec 370 series fabric. This is an extremely strong and durable shade fabric, available in 14 colours.

**Framework:** H5 Timber poles.

**Finish:** Painted
