# Shade Systems

Shade Systems is a locally owned and operated family business which has become a leading manufacturer of custom made commercial shade sails, tensile membrane canopies and architecturally designed all-weather structures. For more than a decade, Shade Systems have set the standard for style and functionality that others have strived to follow.

From concept through to project completion we provide service 'second to none'. Offering design fabrication, construction, installation and project management. Our team is dedicated to working closely with you at every stage to ensure that your ideas and objectives become a reality. Our products are handcrafted in Northland NZ by a dedicated team, whose contributions have shaped the foundation of the company into the institution it is recognised as today.

Shade Systems are experienced industry professionals, whose integrity and accountability show in every aspect of their work, whether in domestic in commercial, large or small. We focus on clear communications which will ensure everything goes smoothly through every step of your project - from design conception to final certification.

As a forward thinking company that has an appetite and professionalism to create outstanding architecture, our team encompasses construction professionals who are accustomed to tight building schedules and the considerable co-ordination needed.

Whether creating a 'landmark' structure or subtle design statement, our involvement ensures a depth of talent that invariably enhances the project.
