

SHADE SAIL STRUCTURES

**SUN PROTECTION FOR YOU
AND THE NEXT GENERATION**

**PROVIDING
COVER**

FREEFORM DESIGN

Shade sails are lightweight and can be twisted, overlapped and angled to provide shade over areas of any size and shape. Conventional building parameters are dispensed with, giving you the freedom to create almost any form you can imagine – meaning the only limits you really have to work with are those of your imagination!

QUICK AND EASY INSTALLATION

Unlike a solid structure, which can take days (if not weeks) to construct, a shade sail can be installed in as little as 1 hour, meaning disruptions to your schedule and daily life are completely minimised. Also, while an installation service is provided by the Shade Systems team, easy-to-follow instructions are available for the DIY enthusiast who may prefer to install their sail themselves.

STAR SHADE - ACG SUNDERLAND

HIP SHADE - TIKIPUNGA PRIMARY

SHELL SHADE - DARGAVILLE KINDERGARTEN

KEEPING YOU SHADED WHILE YOU'RE AT PLAY

*Warranty terms and conditions apply.

cover for generations

LOW MAINTENANCE

One of the most practical and economical features of a shade sail is the ease with which they can be maintained. Thanks to the materials used in the fabrication of sails, dirt is repelled from the fibres of the mesh, meaning your shade sail stays in great condition for longer. When cleaning is required, this can be done quickly and easily at little or no cost.

UV PROTECTION

Shade fabric provides up to 99% UVR block, providing ultimate sun protection. The materials used in the fabrication of sails mean allow plenty of light and airflow through the fabric without the damaging effects of UVR. This means that shade cast by a shade sail remains cool and airy, unlike the shadows a solid structure will cast, which often feel damp and cold.

WARRANTY FOR ULTIMATE PEACE OF MIND

Every shade sail sold by Shade Systems comes with a warranty that covers your product for up to 15 years, depending on the fabric used. All shade sails are also given a lifetime guarantee on the workmanship of the product, giving you ultimate peace of mind.

CLEANING AND MAINTENANCE

Shade Systems offer cleaning and maintenance services on any shade sail sold by them. This not only keeps the product looking great but also greatly increases the life of the shade sail. For those that like to do things for themselves Shade Systems offer a complete range of cleaning products and repair kits to meet specific situations.

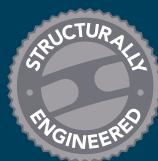

ENDURING QUALITY WITH TOTAL FREEDOM OF DESIGN

SHADESYSTEMSTM

WHY A SHADE SAIL BY SHADE SYSTEMS?

- Cost effective cover solution
