From concept through to project completion we provide service 'second to none'. This is witnessed to by the number of positive referrals and testimonials that we receive. By offering a complete package through Design ideas, Fabrication, Construction, Installation and Project Management our team is dedicated to working closely with you at every stage to ensure that your ideas and objectives become a reality.

IRONMAN SERIES

You have **flexible design** options with our rigid structures.

IRONMAN - CLASSIC GABLE

IRONMAN - CLASSIC CURVE

IRONMAN - LOW PROFILE SKILLION

IRONMAN - LOW PROFILE CURVE

COLACANOPY
COVERED OUTDOOR LEARNING AREA

BENEFITS OF IRONMAN SERIES COLA CANOPIES

Create outdoor spaces that sportsmen, sportswomen and students can enjoy all year round with steel framed buildings that offer protection against adverse weather conditions.

We build sports facilities, permanent school buildings and covered outdoor learning areas that complement existing buildings and last a lifetime. Ask for our advice on the best options for you, whether you need a netball or basketball court cover, a courtyard cover, an outdoor sports arena or a gymnasium.

The Ironman Series offer a 100% protection from harmful UV rays, allow for superior air flow and keep the space dry in wet weather. Features we offer with our steel framed structures and covered outdoor learning areas include partial or total wall cladding for extra protection, padded round posts for safety and curved rooflines to give buildings an attractive finish.

ENGINEERED

Our Ironman Series COLA Canopies are structurally engineered to your specific site and location.

FRAMEWORK

These canopies are an 'all steel' construction using only the highest quality materials and workmanship.

FINISHING PROCESS

All framework is hot dip galvanised after fabrication, this provides ultimate protection ensuring longevity in any New Zealand condition.

ROOFING

The corrosion resistant ZINCALUME® steel base roofing and baked on paint finish system delivers renowned long life performance with low maintenance. You can also choose to insert translucent polycarbonate panels to allow maximum light transmission.

COLOURS

We have a collection of colours to choose from for all roofing and trim.

WE CAN MAKE DREAMS COME TRUE...
